Hi Brian,

Our sign, 618-VE04, is a VF-2420-48x128-20-RGB. Do you have datasheets that you can send me about this sign? We would like to double-check the battery power required for this sign. If possible, could you please send me datasheets for all signs for future reference? The different types are listed below, I tried to find them on the Daktronics website but some were not available.

- VF-2420-64x224-20-RGB
- VF-2420-64x320-20-RGB
