

Questions – 5/30/2023:

1. Requesting a minimum of one month (30 day) time extension to complete the technical proposal based on the technical proposal requirements that were amended for O-0523 East Selmon Resurfacing LBDB on 5/19/2023. The current schedule requires the technical proposal submittal on or before 6/28/2023. The requested time extension will provide the engineering/production team with the additional production time that has been added to the response requirements, in addition to the design analysis time that is already necessary to satisfy the bid requirements of the LBDB RFP.

Answer: THEA will revise the due date for Technical and Price Proposals to July 13, 2023 at 10:00am.
